LIBRARY
CURRENT SERIAL RECORD

FEB - 1 1944

220 East Central
December, 1943

LIST OF PERIODICALS CURRENTLY RECEIVED

U.S. DEPARTMENT OF AGRICULTURE

Some new titles have been added to the list for 1944. Please check the list and let us know which periodicals you wish to see regularly. The periodicals which you are not receiving will continue to be sent. Any additional ones you indicate will be added.

For the information of the Department personnel who are not receiving periodicals from the Library, the procedure for regular routing is as follows: Periodicals may be received regularly on loan from the Branch Library by Department employees in regional and field offices. Send in the names of the periodicals which you wish to see regularly and your name will be placed on an automatic mailing list to receive them. A routing slip is attached to each periodical indicating the names of other individuals in your office to see it before it is returned to the Library. The first person receiving the magazine keeps it for three days and then sends it on to the next person on the list. This procedure continues until each person on the list has seen the magazine, and the last person on the list returns it to the Library.

You are urged to cooperate in this service by returning periodicals when they are due. At best, a periodical is rather out of date before it makes the rounds.

If the periodical you want is not listed, ask for it. Arrangements can be made to have it sent to you regularly from the Washington Library.

Please note: You are expected to replace lost periodicals.

Accountant's Digest. University of Vermont. Burlington, Vt. Q.

Agricultural Engineering. Amer. Soc. of Agric. Engin. Benton Harbor, Mich. M.
